PRICE LIST

WE OFFER herein a complete list of hardy ornamental nursery stock. Our nursery of one thousand acres affords material to meet practically every need in landscape development. Stock is well grown and supplied with a fibrous root system which is of vital importance in the success of a planting.

All material will be freshly dug. We maintain no storage cellars since the superiority of freshly dug stock is recognized generally.

With few exceptions the plant names used conform to "Standard Plant Names" as adopted by the Joint Committee on Horticultural Nomenclature.

CONDITIONS OF SALE

Prices do not include packing. A charge for the cost of the boxes and material used in baling will be made.

Stock specially selected by customers at the nursery will be charged according to its value.

We give no warranty, expressed or implied, as to quality, description, productiveness, or any other matter of any nursery stock that we sell.

Due to the perishable nature of nursery stock we cannot guarantee growth unless we charge a premium. Losses may occur from causes beyond our control. The purchaser may subject the plants to undue exposure before planting, fail to plant properly, or neglect after-care such as cultivation, irrigation, etc. On the other hand, if properly planted and cared for, the failures will be limited to an occasional plant which may be lost for no apparent reason and which loss is to be expected. The success or failure of a planting, beyond the nominal loss above referred to, is in the hands of the planter. Our method of handling and packing stock is modern and goods will be in good condition and well packed when they leave our hands. Our responsibility ends upon delivery to the carriers. If goods suffer through delay in transit, claim should at once be made on the transportation company.

All claims for errors must be made within six days after receipt of goods, or positively will not be considered.

Unknown correspondents who wish to open an account will please give us references and allow us sufficient time to investigate same. Otherwise, cash must accompany order. If goods are desired C. O. D., the order must be accompanied by one third of the amount to guarantee acceptance.

Shipping facilities—We can make direct shipment over the N. Y. C. R. R.; B. & O. R. R.; N. Y. C. & St. L. R. R.; American Railway Express and Motor Freight. A siding to our packing house direct from the main line of the New York Central railroad enables us to handle stock with a minimum of exposure.

Auto Truck Delivery—We are in a position to make deliveries by auto truck to points within seventy-five miles of Painesville. Charges are made according to the size of truck required and the distance.

THE production of many of the plants in this list represents no little effort. More than a few of the items are not profitable which accounts for their general scarcity, but on the other hand they are indispensable to good landscape work.

Since we specialize in the execution of complete planting lists we aim to keep our assortment unbroken. To that end we hope you will co-operate by ordering material in reasonable assortment. We cannot always accept orders which are confined to plants that are scarce and our stock of which is limited.

DECIDUOUS AND EVERGREEN TREES

SHRUBS AND VINES

We recommend that all items marked with an asterisk be lifted with a ball of earth and sewed in burlap. Experience has shown that the loss of these plants, which is otherwise high, is reduced to a minimum if handled in this way. This will involve extra charges, a schedule of which will be found on the last page. In all instances where "B&B" is indicated these charges are included in the printed price.

The figures printed in italics following the common name, indicate the approximate height of the plant at maturity.

We can also supply in limited quantity the following varieties of Japanese Flowering Cherries propagated from the collection at Highland Park, Rochester. They are available in the 4 to 5 ft., 5 to 6 ft., and 6 to 8 ft. grades at \$2.50, \$3.00 and \$4.00 each, respectively.

Amanogawa—semi-double pale pink

Gioiko—semi-double pale yellow

Hata-zakura—semi-double white

Horaisan—double pink

Hosokawanioi—semi-double flesh

Kuramayami—double pink

Kwanzan—syn. **Sekiyama**—double deep pink

Miyako—double pink

Shirofugen—double light pink

Shogetsu—double soft pink

Sumizome—double purplish pink

Our named varieties of Japanese Flowering Cherries are grown on the Japanese type stocks. While the common practice of grafting on the European Mazzard Cherry stock is a cheaper method of propagation, it results in short-lived trees, which difficulty is overcome by using Japanese stocks.
